

MUHAMMAD SHAHIR P

Tirur, Malappuram shahirp70@gmail.com +91 9526718126 shahirportfolio.vercel.app linkedin.com/in/shahirp70

Summary

Full Stack Developer specialized in the MERN Stack, skilled in building scalable, responsive, and efficient web applications. Expert in designing clean RESTful APIs, developing dynamic frontends, and ensuring seamless integration between client and server. Experienced in Agile practices and cross-platform mobile development using Flutter to deliver robust, high-performing software solutions.

Experience

Software Developer Nov 2025 – Present
Vionex Nova FZC Dubai, UAE

- Leading the development and scaling of integrated platforms for real estate and fitness business management.
- Designing and implementing comprehensive ERP systems with detailed module breakdowns and industrial integrations.
- Utilizing agentic IDEs and advanced AI development tools to streamline coding workflows and technical infrastructure.

Software Developer Aug 2024 – Sep 2025
Highskilz Puthanathani, India

- Built and maintained web applications using the MERN stack, including secure JWT-based authentication systems.
- Designed highly reusable React components, boosting development speed and ensuring mobile responsiveness.
- Developed mobile features using Flutter for a single codebase deployment across iOS and Android.
- Collaborated directly with clients to gather requirements and demonstrate finished software solutions.

MERN Full Stack Intern Aug 2024 – Apr 2025
Luminar Technolab Kochi, India

- Developed multiple web applications in an Agile environment using MongoDB, Express, React, and Node.js.
- Optimized applications for faster page load times, improving stability and user experience.
- Managed Git version control and resolved code merge conflicts to ensure seamless project delivery.

Projects

Tripeloo Jul 2025 – Aug 2025

- Built a MERN platform for traveler-provider bookings with an admin panel and review rating system.
- **Tools:** MongoDB, Express.js, React, Node.js, Tailwind.

CasaAura Sep 2025 – Oct 2025

- Developed a full-stack e-commerce platform featuring product listings, shopping cart, and secure order management.
- **Tools:** MongoDB, Express.js, React, Node.js.

Education

University of Calicut, BSc in Computer Science. Aug 2021 – Mar 2024
